BUREAU OF LAND MANAGEMENT

WARM SPRINGS RESOURCE AREA

15 East 500 North
Fillmore, Utah 84631

IN REPLY REFER TO:

3800
UT055

October 14, 1989

Mr. Wayne S. Behunin
P.O. Box 48
Beaver, Ut. 84713

Dear Mr. Behunin:

Our records indicate that you are the owner of a group of mining claims numbered UMC 139066 through UMC 139075. These claims are located in sections 29 and 30 of Township 19 South, Range 13 West. They are called the White Lady claims and the Starfire claims.

A recent inspection of this area by my staff indicates that the access to these claims has recently been bladed. They also found a cabin that has been there for quite some time. Portions of this blading and all of the cabin are within the boundaries of the Notch Peak Wilderness Study Area. Because of this location special rules apply to the development of these claims. These rules are found in 43 CFR 3802, titled Exploration and Mining, Wilderness Review Program.

We have been unable to locate in our files any Notice of Intent or Plan of Operations related to these claims or the access road to them. A plan of operations is required for the work that has been done to the road by 43 CFR 3802.1-1(a). A Plan of Operations is required for the location of a structure on your claims for more than 30 days by 43 CFR 3802.1-1(e). After we have received a Plan of Operations from you we will process it under the provisions of 43 CFR 3802.1-5. Please do not conduct any further work on your mining claims until you have filed a Plan of Operations with this office and have received back from us an approval of this plan.

Please call Philip Allard of this office at (801) 743-6811 to discuss this matter and for assistance in the preparation of your Plan of Operations.

Sincerely,

Dave Henderson
Area Manager
